Woman Soul Gathering inspiring and igniting our soul's wisdom

October 26-29, 2017

Pilgrim Firs Retreat Center, Port Orchard, WA

A CALL TO WOMEN in celebration and ceremony:
sacred drumming and singing, intimate small circle work, large group ritual

We have traveled unique paths to arrive at this moment. You are invited to join our circle of community to explore and show your true self, your soul, your spirit, and come to understand the value of your light in the world. You may say you are not ready, that maybe someday you will face your fears, your pain, your sorrow. Truth is, there never is a "completely ready." There never is a right time. If that were not true, we would not have created the words heroine, hero, or courage. Now is the time. The collective WE needs You. Our Mother Earth is asking for your voice, your story, your creativity. One of the most peaceful but powerful forces in these times is to stand firm in a community of peace and love.
